

AXC In-Line Duct Fans are designed for residential, commercial and light industrial ventilation applications. The quiet, efficient backward-curved motorized impeller is capable of developing significant pressure, and the in-line configuration simplifies installation.

AXC IN-LINE DUCT FANS

Features & Benefits

- Heavy gauge, drawn steel housing with baked epoxy finish
- 120V operation, other voltages available
- Easy to install - mounting brackets included
- May be mounted in any position
- Fans may be used to supply or exhaust air
- Suitable for air temperatures up to 140 F / 60 C
- Energy efficient - speed controllable (optional solid state speed control)
- Optional pre-wired with 120V power cord (AXC-C)
- Exceptionally quiet and efficient BC centrifugal motorized impeller
- External rotor motor design results in superior motor cooling and durability
- Permanently lubricated ball bearing motor for maintenance-free operation
- Automatic reset thermal overload protection
- Fan and motor are precision balanced for quiet and vibration-free operation
- Easily accessible, external junction box with pre-wired capacitor
- Available to fit duct sizes 4" - 12"; airflow capacities to 970 cfm

AXS EC IN-LINE DUCT FANS

Features & Benefits

- Efficient electronically commutated (EC) motorized impeller
- Energy efficient
- Corrosion resistant, durable steel housing with polymer coating
- 120V, 60 Hz operation; single phase
- Easy to install - mounting brackets included
- Suitable for air temperatures up to 105 F
- Optional pre-wired with 120V power cord (AXS-EC-C)
- Speed controllable 0-10 V
- External rotor motor design results in superior motor cooling
- Rated for continuous operation
- Permanently lubricated ball bearing motor for maintenance-free operation
- Automatic reset thermal overload protection
- Fan and motor are precision balanced for quiet, vibration-free operation
- Available to fit duct sizes 4"-12"
- Airflow capacities to 801 cfm

With its efficient electronically commutated (EC) motorized impeller, AXS EC In-Line Duct Fans set new standards for efficiency and versatility. The efficient backward-curved impeller can develop significant pressure. AXS EC fans are suitable for residential, commercial and light industrial ventilation applications.

DUCT FANS

AXP In-Line Duct Fans are designed for residential, commercial and light industrial ventilation applications. The quiet, efficient backward-curved motorized impeller is capable of developing significant pressure, and the in-line configuration simplifies installation.

AXP IN-LINE DUCT FANS

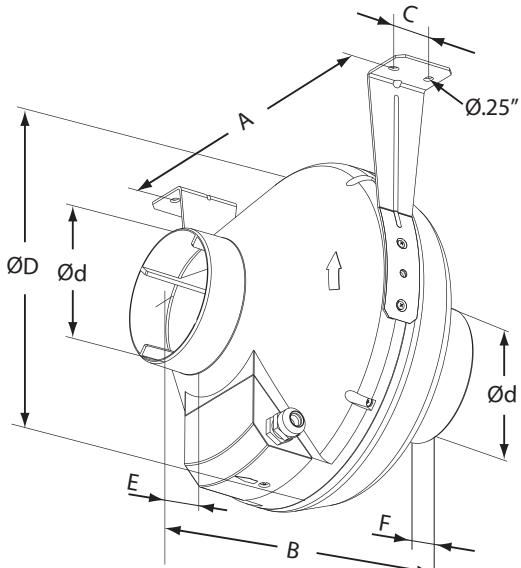

Features & Benefits

- UV and corrosion resistant, durable plastic housing
- 120V operation, other voltages available
- Easy to install - mounting brackets included
- May be mounted in any position
- Fans may be used to supply or exhaust air
- Suitable for air temperatures up to 122 F
- Energy efficient - speed controllable (optional solid state speed control)
- Optional pre-wired with 120V power cord (AXP-C)
- Exceptionally quiet and efficient BC centrifugal motorized impeller
- External rotor motor design results in superior motor cooling and durability
- Permanently lubricated ball bearing motor for maintenance-free operation
- Automatic reset thermal overload protection
- Fan and motor are precision balanced for quiet, vibration-free operation
- Easily accessible, external junction box with pre-wired capacitor
- Available to fit duct sizes 4" - 12"; airflow capacities to 837 cfm

MFT & MFT-S MIXED FLOW IN-LINE FANS

Features & Benefits

- UV and corrosion resistant, durable plastic housing
- Virtually silent MFT-S models, aerodynamically designed for smooth airflow
- Powerful, compact and quiet mixed flow impeller
- Easy to install - mounting brackets included
- May be mounted in any position
- Ideal for long duct runs
- Fans may be used to supply or exhaust air
- Suitable for air temperatures up to 140 F
- Optional pre-wired with 120V power cord (MFT-C / MFT-S-C)
- Energy efficient two-speed motor
- Single-phase asynchronous motor; IPX4 protection
- Permanently lubricated ball bearing motor for maintenance-free operation
- Automatic reset thermal overload protection
- Fan and motor are precision balanced for quiet, vibration-free operation
- Easy access to motor and impeller; no need to dismantle ductwork

DUCT FANS

MBI Centrifugal In-Line Fans are designed for residential and light commercial ventilation applications. Multiple source ducting options offer the perfect solution for whole house ventilation in multi-unit housing complexes.

MBI CENTRIFUGAL IN-LINE FANS

Features & Benefits

- Steel housing with corrosion resistant finish
- 120V operation, other voltages available
- Removable fan cover for easy maintenance
- Easy to install - mounting brackets included
- Multiple source ducting options
- Fans may be used to supply or exhaust air
- Suitable for air temperatures from -13 F to 140 F
- Energy efficient - speed controllable (optional solid state speed control)
- Exceptionally quiet and efficient BC centrifugal motorized impeller
- Single-phase asynchronous external rotor motor
- Permanently lubricated ball bearing motor for maintenance-free operation
- Automatic reset thermal overload protection
- Fan and motor are precision balanced for quiet, vibration-free operation
- Easily accessible, external junction box with pre-wired capacitor
- Available to fit duct sizes 4", 5" & 6"; airflow capacities to 290 cfm
